

QUALITY POLICY IN ROCKFIN

ROCKFIN Sp. z o.o. devotes all its effort to continuous improvement of the products and services by comprehensive and full involvement of all its staff in creation and continuous development of a Quality Management System, compliant with the requirements of the international standards

PN-EN ISO 9001: 2015 and PN-EN ISO 3834-2 :2007

We subject all our efforts to the problems, needs and expectations of our Clients, trying to foresee what they might need from us in the future.

The successes of our Company depend on the results of the commitment of all employees in the constant improvement of the quality level of our processes, manufactured products and provided services.

Satisfied Clients are a key element to the Company Strategy and a guarantee of our success.

- We facilitate Clients access to our products and services by expanding the distribution network throughout the country,
- The Management Board of the Company actively participates in implementation the principles of quality management system and takes actions that inspire all employees to engage in quality matters,
- We develop co-operation with our Clients and ensure satisfaction of all requirements related to the implementation of products and services,
 - We improve the processes of order / contracts performance so they are:
 - * *more flexible - responding faster to Clients' requirements and needs,*
 - * *more effective - better meeting the Clients' needs and expectations,*
 - * *more efficient - meeting Clients' requirements at lower costs,*
- We promote and increase awareness of nuclear safety culture through regular training of employees in terms of work organization, communication, quality and product responsibility,
 - We care about the quality and reliability of our products and services we provide,
- We systematically review effectiveness of achieving our goals in order to continuously improve and develop the quality management system.

I accept responsibility for the implementation of the Quality Policy,

Chief Executive Officer, President of the Board
